

Name:

Q1: Answer the following: (10 Marks)

- A. What are the differences between RAM and ROM?
- B. List the functions of Operating System.

Q2: Fill in the blanks: (10 Marks)

1. The smallest unit of data in a computer system is called a _____.
2. A _____ is an extremely fast computer mainly used for scientific research and complex calculations.
3. The _____ is known as the brain of the computer and is responsible for all processing tasks.
4. The CPU component that performs arithmetic and logical operations is the _____.
5. _____ memory is volatile and loses its data when the power is switched off.
6. An operating system acts as an _____ between the user and the computer hardware.
7. A _____ operating system allows multiple users to share CPU time simultaneously.
8. The first function performed by BIOS when a computer starts is called _____.
9. Physical components of a computer that can be touched are called _____.
10. The speed of a CPU is measured in _____.

Q3: True or False
(10 Marks)

1. A computer can store data in both **internal and external storage media**.
2. The **Northbridge** is responsible for managing slower devices such as USB ports and hard drives.
3. **Application software** is used by users to perform specific tasks such as word processing and spreadsheets.
4. A computer can function normally without an operating system installed.
5. The **kernel** is the central component of an operating system and runs in

supervisor mode.

6. BIOS is a software program stored on the **hard disk drive**.
7. BIOS is a **volatile memory**, meaning its data is lost when power is turned off.
8. A worm **requires user interaction to replicate itself**.
9. **Information** is unprocessed raw facts without meaning or context.
10. A computer virus **always** contains a payload routine.

MID Exam of Computer Skills
University of Basrah
College of Computer Science and Information Technology
Department of Computer Information Systems
2024-2025 / First Semester

Date: 20/1/2025

Exam Duration: 1 Hours

MID: A/ Who are Application software or Operating Systems for below?

- 1- Android,
- 2- Fire war,
- 3- Windows,
- 4- Mac,
- 5- Microsoft office,

5

B/ Who are input devices or output devices for below?

- 1- Speaker,
- 2- Monitor,
- 3- Plotter,
- 4- Scanner,
- 5- Microphone,

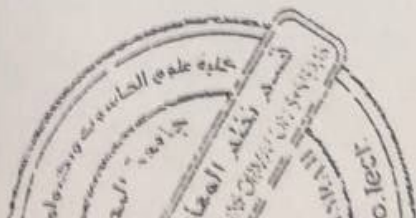

5

Quiz: Can a BIOS chip be upgraded or updated? Explain that

5

Test: Explain the different from RAM & ROM memory?

5

Answer the following questions:

1. What is a CPU ? What are its types?
2. What are the components of a motherboard? List only five.
3. What is the difference between RAM and ROM ?
4. Define the following terms: IT , Software , Mainframe Computer , BIOS ?
5. What is the difference between Storage and Memory ?
