Head of the Department

Prof. Dr. Haider M. Abdalnabi

Final Exam of Computer Skills
University of Basrah
College of Computer Science and Information Technology
Department of Computer Information Systems
2024-2025 / First Semester

Exam Duration: 2 Hours

Date: 20/2/2025

- N.B. (1) The maximum marks for this paper is 40 [10+6+4+9+6+5].
(2) The marks for each question are shown in the right side of the question.
(3) Answers to questions should be **grouped and written together**, i.e. all answers to sub questions of individual questions like Q1, Q2, Q3 etc. should be answered **one below other**.
(4) Please read each question carefully before you start to answer it.

Q1: A/ Who are Application software or Operating Systems for below?

10
[a:5
b:5]

- 1- Android,
- 2- Fire war,
- 3- Windows,
- 4- Mac,
- 5- Microsoft office,

B\ Can a BIOS chip be upgraded or updated? Explain that.

Q2: Explain the different between two from the following

6
[2x3]

- 1- RAM & ROM memory
- 2- The replication routine & Payload Routine
- 3- Network & protocol

Q3: What's the meaning of Multi-boot system? And what the drawback?

4

Q4: Answer the following questions for nine only:

9
[1x9]

- 1- One of the following components is not a basic computer component:
- CPU - RAM - Router - ROM
- 2- It is the fastest and most powerful computer, and is used in scientific and military research
- Server - Tablet - Supercomputer - Laptop
- 3- The tool that enables the researcher to obtain references from the Internet is:
- Yahoo - MS explorer - Netscape - Outlook express
- 4- Which of the following helps in preparing and writing projects?
- Power Point - Photoshop - Word - Internet explorer
- 5- To write a square sign in the Word text editor, we use:
- Powers of line dialog box - exp from the Font dialog box
- 6- Which of the following is considered an anti-virus protection program?
- Nero 7.0 - McAfee 7.0 - Media player - Ms SQL server 7.0

Final Exam of Computer Skills
University of Basrah
College of Computer Science and Information Technology
Department of Computer Information Systems
2015-2016 / First Semester

Exam Duration: 2 Hours

IT 110

Date: 18 /2/2016

Q1/ A : Write the number of the sentence and the letter of the correct answer for the following sentences (answer any 6) : **[6 marks]**

1. Which software creates page layouts by arranging text and graphics in movable frames?
a. desktop publishing b. spreadsheet
c. word processing d. DBMS
2. What file system is the default for Windows 7 system volumes?
a. NTFS b. FAT32
c. HFS+ d. UDF
3. In CAD, a 3D object is first created as a _____ and then rendered to give it a surface.

Q1// A/ Choose the correct answer

1. Windows 7 comes in
a) both 32-bit and 64-bit versions b) 32-bit versions c) 64-bit versions d) both 32-bit and 86-bit versions
2. To prepare a hard drive for use, it must first be
a) update b) partitioned c) formatted d) roll back
3.A multi-user, command-line operating system for servers.
a) UNIX b) Mac OS X c) Microsoft Windows d) Linux
4.file system used in modern versions of Windows.
a) NTFS b) FAT32 c) FAT64 d) HFS+
5.A type of malware that pops up unwanted ads on the screen
a) Adware b) Firewall c) Anti-Spam d) Spyware

B// Why use the following operations

1. Roll back on device driver
2. Plug and Play
3. Disk Checking
4. Uninstaller program
5. Formatted

Q2// A/ Define the following

1. Files path
2. Registry
3. File extension
4. Platform
5. Folder tree

B// Fill in the blanks with appropriate

1. Running More than One OS usingand
2. Using Android for tablets and smartphones because,, and

Q1// A/ Fill in the blanks with appropriate

1. Spreadsheets use formulas to perform calculations
2. For small database system use ----- and for large-scale databases, use database system like -----
3. The application software is designed to -----, or to -----

B/ Choose the correct answer

1.The program may look like something funny or useful such as a game or utility, but harms the system when executed.
a) Hoaxes b) Trojan horses c) Jokes d) Macro viruses
2. routine is a mandatory part of a virus
a) Malicious routine b) Replication routine c) Payload routine d) Non-malicious routine
3. A virus is quite a powerful way to cause intentional damage, this cause is called
a) Proof of concept b) Challenge and curiosity c) Protest and anarchy d) Political motives
4.Software that enables a small business to manage and track its financial health and transactions.
a) Accounting software b) Personal finance software c) Tax software d) Microsoft Excel
5.are lines and shapes drawn mathematically
a) Raster graphic b) Pixel graphics c) Vector graphics d) Bitmap graphics

Q2// A// Define the following

- 1) Render
- 2) DBMS
- 3) Jokes
- 4) page layout software
- 5) Family historians.

B// Answer the questions:

- 1) Why viruses were the most common form of malware than the worm in PC environments for a long time?
- 2) How updating applications?

Q1// A/ Define the following

1. File extension
2. Platform
3. Folder tree
4. Files path
5. Registry

B// Why use the following operations

1. Disk Checking
2. Uninstaller program
3. Formatted
4. Roll back on device driver
5. Plug and Play

Q2// A/ Choose the correct answer

1.A multi-user, command-line operating system for servers.
a) UNIX b) Mac OS X c) Microsoft Windows d) Linux
2.file system used in modern versions of Windows.
a) NTFS b) FAT32 c) FAT64 d) HFS+
3.A type of malware that pops up unwanted ads on the screen
a) Adware b) Firewall c) Anti-Spam d) Spyware
4. Windows 7 comes in
a) both 32-bit and 64-bit versions b) 32-bit versions c) 64-bit versions d) both 32-bit and 86-bit versions
5. To prepare a hard drive for use, it must first be
a) update b) partitioned c) formatted d) roll back

B// Fill in the blanks with appropriate

1. Using Android for tablets and smartphones because,, and
2. Running More than One OS usingand

Q1// A/ Choose the correct answer

1. Software that enables individuals and families to track and manage their bank accounts and investments.
a) Accounting software b) Personal finance software c) Tax software d) Microsoft Excel
2. software is used to design 3D objects using based drawings.
a) Vector graphics b) Raster graphic ~~b) Vector graphics~~ d) Bitmap graphics.
- ~~X~~ 3. Many programmers want to see if they can write virus or not, this cause is called
a) Proof of concept b) Challenge and curiosity c) Protest and anarchy d) Political motives
- ~~X~~ 4. allows you to try it first and then pay only if you keep it.
a) Commercial software b) Freeware software c) Shareware software d) Public domain software
5. is a chain letter that is usually circulated as an email message.
a) Hoaxes b) Trojan horses c) Jokes d) macro viruses

B// Define the following

- 1) Tax software
- ~~X~~ 2) Software piracy
- ~~X~~ 3) EULA
- 4) Data mining
- 5) Backdoor Trojans

Q2// A/ Fill in the blanks with appropriate

1. The most common type of database is a ----- and -----.
2. Vector graphics are small and easily resizable but not -----.
3. Desktop publishing uses ----- and ----- frames for everything, including text.

B// Answer the questions:

- 1) How Installing and Removing Applications?
- 2) What elegant approach of virus to find suitable objects?

Q1// A/ Choose the correct answer

1. Windows 7 comes in
a) both 32-bit and 64-bit versions b) 32-bit versions c) 64-bit versions d) both 32-bit and 86-bit versions
2. To prepare a hard drive for use, it must first be
a) update b) partitioned c) formatted d) roll back
3.A multi-user, command-line operating system for servers.
a) UNIX b) Mac OS X c) Microsoft Windows d) Linux
4.file system used in modern versions of Windows.
a) NTFS b) FAT32 c) FAT64 d) HFS+
5.A type of malware that pops up unwanted ads on the screen
a) Adware b) Firewall c) Anti-Spam d) Spyware

Q1// B/ Why use the following operations

1. Roll back on device driver
2. Plug and Play
3. Disk Checking
4. Uninstaller program
5. Formatted

Q2// A/ Define the following

1. Files path
2. Registry
3. File extension
4. Platform
5. Folder tree

B// Fill in the blanks with appropriate

1. Running More than One OS usingand
2. Using Android for tablets and smartphones because,, and
